Re: Thank You!

Hi Bill and Cindy.

I wanted to write a note of thanks for helping me with my 1935 Chevrolet. It was just a couple months ago that I reached out after finding your website through a Google search. What a surprise to find an antique car restoration shop only 30 minutes from my house!

My "project" had been sitting in my garage for over two years. While in overall good shape, it needed a wiring harness, turn signals, gas tank, fuel lines, engine mounts, brake work, frame repair, and various odds and ends. Later, I would find a rebuilt transmission was also needed to get the old girl roadworthy.

Having never had the opportunity to work with you, I started out thinking this would be a business transaction and hoped that your services would be reputable. However, I quickly discovered that I had found more than a talented restoration shop.... I had found a wonderful group of people that would soon become my friends.

I found myself looking forward to a morning call with you, Bill, to discuss how the project was going and talk about unique and interesting things about my car. Your knowledge of old cars is amazing. Always genuinely happy to take my call and share thoughts, it was like talking to a buddy. Your staff of Blake and Mark are really good guys and excellent at their craft; please thank them for me. Cindy, you are a pleasure to talk to, and I so appreciate all the research and coordination you put into my project.

I can't wait to get my 35 out on the road! Once the salt and snow are gone, I look forward to enjoying many miles on the back roads of West Virginia!

Please feel free to share this letter of appreciation with other folks that may be interested in your services. I am also happy to talk to anyone about my very positive experience. You do excellent work, but more importantly, you are really nice people that are easy to trust. I look forward to coming by to visit and know that if I have any work needed in the future, my friends will be glad to help me.

All the best and thank you again!
